Thirty posters
No. 02 of 30

A glass knot,
turning once in eight seconds

Now you see it now you don't.

Index 1.52
crown glass

Seen only
through the type

Set in Fraunces,
soft and wonky

12 November 2026
prompted in 60 seconds

The prompt

151 words in 60 seconds. 9 did the work.

What shaped the poster

- 12-column grid
- some text to anchor the design
- 3D rotating object
- made out of glass
- refracting from the text
- subtle definition
- vibrant green
- overlay textures
- playful type of serif

Day 02 of 30

151

words, spoken
in one minute.

60 s	0	Code only

How it was made

Code only, no generative model. Claude Code set the type in Google Fonts Fraunces, soft and wonky, on a 12 column grid in Canvas, then built a torus knot in WebGL that refracts that type with a little dispersion and almost no edge, so the glass only shows through the letters. Grain and paper fibre overlays give the green its depth, and FFmpeg turned the 8 second turn into a loop.
